Historical Property Recognition Program

- John Wintersteen is still working to come up with a "Finding of Facts guideline" in order for the Committee to have an objective and balanced approach when reviewing each property.
- Councilwoman Julie Pace, Doug Jorden and John Wintersteen are meeting with a local artist tomorrow to create an outdoor art piece for all properties officially recognized by the Town.
- The Committee received an inquiry from a Town resident offering his services of historical preservation. The Committee agreed that we are still at the beginning of this program and not at a point to need those kinds of services. The Committee agreed that this program is recognition of historical properties and we have no intention of preserving or regulating properties. This program is based on property owners voluntarily submitting their homes because of their pride in its historical significance.
