November 5, 2018

The Honorable Mayor, Members of the Town Council, and Citizens of the Town of Paradise Valley, Arizona:

The Comprehensive Annual Financial Report (“CAFR”) of the Town of Paradise Valley, Arizona (the “Town”) for the fiscal year ended June 30, 2018, is hereby submitted in accordance with State law (Arizona Revised Statutes 9-481). Management assumes full responsibility for the completeness and reliability of all information presented in this report, based upon a comprehensive framework of internal controls designed both to protect the Town’s assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town’s financial statements in conformity with generally accepted accounting principles. Because the cost of internal controls should not outweigh their anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

CliftonLarsonAllen LLP, a firm of licensed certified public accountants, has issued an unmodified (“clean”) opinion on the Town of Paradise Valley, Arizona’s financial statements for the year ended June 30, 2018. The independent auditors’ report is located at the front of the financial section of this report.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Town of Paradise Valley’s MD&A can be found immediately following the report of the independent auditors.

CAFR COMPOSITION

A CAFR consists of three main sections: the introductory section, the financial section, and the statistical section.

The **Introductory Section** includes this letter of transmittal and an organizational chart that lists the major division, components, and mechanisms of the Town. This section is intended to familiarize the reader with the Town’s organization structure, nature and scope of provided services, and specifics of its operating environment. The information in this section should provide adequate background and sufficient context to assist the reader with the financial section of this CAFR.

The **Financial Section** contains all financial statements and supplemental information required to be disclosed by United States Generally Accepted Accounting Principles (GAAP) and Arizona State Law, as well as information on all individual funds. Also, in this section is other useful supplementary information that is not required by GAAP or Arizona State Law to represent a financial overview of the Town.

This section is parceled into five parts:

- 1) Independent Auditors' Report
- 2) Management's Discussion and Analysis (MD&A)
- 3) The Basic Financial Statements
- 4) Notes to the Financial Statements
- 5) Other Supplemental Information - Combining, Individual Fund Financial Statements and Schedules

The **Statistical Section** is unaudited. It includes various tables and charts that reflect financial, economic, social, and demographic information about the Town that are interesting and relevant to assessing the Town's financial condition and operation. This section is intended to assist the reader in understanding the environment in which the Town operates.

PROFILE

Paradise Valley was incorporated in May 1961. The Town is centrally located in Maricopa County and is surrounded by the cities of Phoenix and Scottsdale. It has land area of approximately 17 square miles.

Paradise Valley is an Arizona municipal corporation, acting as a general law town as prescribed in the Arizona Revised Statutes. The Town government operates under the Council-Manager form of government. Policy making and legislative authority are vested in the Town Council, which consists of seven Council members. The Mayor is elected by voters to a two-year term and the six Council members are elected to staggered four-year terms.

The Town Council is responsible for, but not limited to, the adoption of local ordinances, the Town budget, the development of citizen advisory committees, and the appointment of the Town Manager and Town Attorney. The Town Manager is responsible for implementation of the policies of the Town Council and administering Town operations. The Town Manager appoints all positions except the Town Attorney and Municipal Judges.

The Town provides a limited range of services, including police protection, construction and maintenance of streets, and planning and building services. Fire protection services are provided through an intergovernmental agreement with the City of Phoenix. The City of Scottsdale provides wastewater treatment services through an intergovernmental agreement for approximately 60% of the geographic area of the Town. The City of Phoenix owns the sewer lines and provides sewer service to the remaining 40% of the geographic area of the Town. Water services are provided by the City of Phoenix and two private water companies. Solid waste services are provided by private companies. Ambulance service is provided by a private company.

The annual budget serves as the foundation for the Town's financial planning and control. The Town Council formally adopts the budget and legally appropriates available monies to the Town's various funds. Therefore, these funds have appropriated budgets, and budget to actual information is presented. Prior to the third Monday in July, the Town Manager presents the preliminary budget to the Town Council. The budget includes proposed expenditures and the means of financing them. The preliminary budget sets the limit for expenditures during the fiscal year. A public hearing is held prior to the budget's final adoption.

The expenditure appropriations in the adopted budget are by department in the General Fund and by fund for all other funds. The maximum legal expenditure permitted for the fiscal year is the total budget as adopted. Departmental appropriations may be amended during the year. The Town Manager is responsible for developing and administering procedures to amend the budget. Management control of budgets is further maintained at a line item level within each department.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the basic financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town operates.

Local Economy

The economy in the Phoenix-metro area continues to improve. The hospitality industry (eight resorts) is the largest source of revenue in the operating budget (General and Highway User Revenue Fund), making up about 55% of all operating revenues. In FY 2014-15, direct local sales and bed taxes from the hospitality industry totaled about \$8.1 million; \$8.8 million in FY2017-18.

The Town's resorts continue to re-invest in themselves to remain a desirable destination. ANdAZ opened in the former Cottonwoods resort location last year, and Mountain Shadows resort completed its redevelopment, opening to the public last spring. Grading and drainage is well underway at the Ritz Carlton site, and the resort is on track to open in the 1st quarter of 2020.

The construction industry impacts two revenue sources – construction sales tax and permit revenues. Construction sales tax makes up about 32% of the Town's sales tax and 17% of the Town's total general fund revenue. Per the Town's financial policies, construction sales tax in excess of \$500,000 is transferred to the Capital Improvement Program ("CIP") fund to provided dedicated "CIP" funding.

Major Initiatives

The Town continues to focus on preserving the quality of life inherent in the Paradise Valley community while enhancing the hospitality industry through the development and redevelopment of Paradise Valley luxury resorts.

NEXT YEAR'S BUDGET

The FY 2018-19 budget balances important resource requests while remaining cautious about revenue streams. It provides funding to maintain and enhance Town services and road improvements surrounding the Ritz Carlton project, and an aggressive paydown of the Public Safety Personnel Retirement System (PSPRS) unfunded liability. With the additional PSPRS payment, of up to \$6,000,000, reduces the mandatory 7.5% assessment by \$450,000, a significant savings to taxpayers.

LONG-TERM FINANCIAL PLANNING

Long-term financial planning is a key element in the Town's budgeting process. The ten-year plan sets the trajectory for financial, operational, and infrastructure sustainability by clearly defining current and projected needs and anticipated resources. The ten-year plan takes into account the completion of major developments, aggressive payment of pension liabilities, maintenance of infrastructure, replacement of fire trucks, economic cycles, pending legislation, and other major influences on the Town's revenues and expenditures. The long-term financial plan is a critical tool used by staff, council, and the public alike in making informed decisions.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Paradise Valley for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017. This was the ninth year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only.

We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

The presentation of this report would not have been possible without the efficient, effective, dedicated, and supportive services of the entire finance office. Their bestowed efforts to enhance procedures, ensure accuracy, improve systems, and conduct extensive research have allowed for the completion of this annual audit and report. Each member of the office has our sincere appreciation for the contributions made in the preparation of this report.

We would like to express our appreciation to all members of the Town that assisted and contributed to the preparation of this report. Credit also must be given to the Town Council, Town Management and all departments for their unsurpassable support for maintaining and strengthening the utmost standards of professionalism in the management of the Town.

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and Town Council
Town of Paradise Valley, Arizona
Paradise Valley, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Paradise Valley, Arizona (the Town), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Paradise Valley, Arizona as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison schedules of the General Fund and HURF Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

During fiscal year ended June 30, 2018, the Town of Paradise Valley, Arizona adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. As a result of the implementation of GASBS No. 75, the Town of Paradise Valley, Arizona reported a restatement for the change in accounting principle (see Note 4.B.) Our auditors' opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the pension schedules, as noted within the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Honorable Mayor and Town Council
Town of Paradise Valley, Arizona

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**TOWN OF PARADISE VALLEY, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2018**

This section of the Town of Paradise Valley's (the Town) Comprehensive Annual Financial Report presents a narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2018. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and the basic financial statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal years 2018 and 2017 are as follows:

- ◆ The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the fiscal year 2018 and 2017 by \$129.0 million and \$121.7 million (net position), respectively. Of these amounts, \$24.6 million and \$14.6 million (unrestricted net position), respectively, may be used to meet the government's ongoing obligations to citizens and creditors.
- ◆ Total net position increased by \$7.3 million during fiscal year 2018 and increased \$4.9 million during fiscal year 2017.
- ◆ As of June 30, 2018 and 2017, the Town's governmental funds reported combined ending fund balances of \$46.2 million and \$40.0 million, respectively, which were comprised of nonspendable, restricted, assigned, and unassigned fund balances.
- ◆ At the close of fiscal year 2018, unassigned fund balance for the General Fund was \$32.8 million, or 182% of actual General Fund operating expenditures. At the close of the fiscal year 2017, the unassigned fund balance for the General Fund was \$26.5 million, or 122% of operating expenditures.
- ◆ During fiscal year 2018, the Town's total bonded debt decreased by \$1.3 million due to scheduled debt payments.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components:

1. Government-wide financial statements
2. Fund financial statements, and
3. Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets, deferred outflows of resource, liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

**TOWN OF PARADISE VALLEY, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2018**

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported at the time the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, such as revenues pertaining to uncollected court fines and expenses pertaining to earned but unused vacation and sick leave.

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include basic services such as general government, public safety, and streets. The business-type activities of the Town include sewer, fire service, and alarm operations.

The government-wide financial statements include not only the Town itself (known as the primary government), but also two legally separate nonprofit entities: the Mummy Mountain Preserve Trust and the Paradise Valley Municipal Property Corporation (MPC). Although legally separate from the Town, these component units are blended with the primary government because of their governance or financial relationship to the Town.

The government-wide financial statements can be found beginning on page 20 of this report.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Town's funds can be divided into the following two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. This information may be useful in determining what financial resources are available in the near future to fund the Town's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**TOWN OF PARADISE VALLEY, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2018**

The Town maintains nine individual governmental funds organized according to their type (general fund, special revenue, debt service, and capital projects). Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Highway User Revenue Fund, and Capital Projects Fund, which are considered to be major funds. Data from the remaining six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in a separate section of this report. The basic governmental fund financial statements begin on page 22 of this report.

Proprietary Funds – Proprietary funds are generally used to account for services for which the Town charges customers. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The Town maintains only one type of proprietary fund – enterprise funds.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for the sewer, fire service, and alarm operations of the Town.

The proprietary fund financial statements begin on page 28 of this report.

Notes to Basic Financial Statements

The notes to basic financial statements provide additional information that is essential to obtain a full understanding of the data provided in the government-wide and fund financial statements and should be read with the financial statements. The notes to basic financial statements begin on page 31 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the Town's progress in funding its obligation to provide pension benefits to its employees. This information can be found beginning on page 64 of this report.

Combining Statements

The combining statements referred to earlier, in connection with non-major governmental funds are presented immediately following the required supplementary information on pensions.

Government-Wide Financial Analysis

Net Position

While this document contains information about the funds used by the Town to provide services to our citizens, the Statement of Net Position and the Statement of Activities serve to provide an answer to the question of how the Town, as a whole, did financially throughout the year. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by the private sector. The basis for this accounting takes into account all of the current year revenues and expenses regardless of when the cash is received or paid.

**TOWN OF PARADISE VALLEY, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2018**

These two statements report the Town's net position and the changes in net position. The change in net position is important because it tells the reader whether the financial position of the Town as a whole has improved or diminished. However, in evaluating the overall net position of the Town, non-financial information such as changes in the Town's tax base and the condition of the Town's capital assets will also need to be evaluated.

Net position may serve as a useful indicator of a government's financial position. Net position was \$129.0 million and \$121.7 million at the close of the fiscal year 2018 and 2017, respectively.

Deferred outflows of resources decreased \$6.7 million during the current year as the Town did not make a payment towards the unfunded liability prior to fiscal year-end; whereas a \$5.0 million payment was made in the previous year toward the unfunded liability.

The largest portion of the Town's net position reflects its investment in capital assets (e.g. land, buildings, equipment, and infrastructure) less depreciation and any related debt used to acquire those assets, of \$103.6 million (80%) and \$106.7 million (88%) for the fiscal years 2018 and 2017, respectively. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for appropriation. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be liquidated for these liabilities.

An additional portion of the Town's net position, \$0.8 million (less than 1%) for fiscal year 2018 and \$0.5 million (less than 1%) for fiscal year 2017, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position for fiscal years 2018 and 2017, \$24.6 million (19%) and \$14.6 million (11%) respectively, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of both the current and previous fiscal years, the Town was able to report positive balances in all three categories of net position for the government as a whole, as well as for the business-type activities.

Changes in Net Position

The Town's net position increased by \$7.3 million and \$4.9 million during the fiscal years 2018 and 2017, respectively. These changes are explained in the government and business-type activities discussion below.

**TOWN OF PARADISE VALLEY, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2018**

Governmental Activities – In fiscal year 2018, governmental activities increased the net position of the Town by \$7.1 million. Total revenues increased \$5.0 million (18%) from fiscal year 2017. Local taxes increased by \$2.4 million (13%) primarily due to an improved economy which included increased consumer spending. Fines, fees, and charges for services increased \$1.5 million (31%) due to an increase in traffic citations issued and paid during the current year. Furthermore, there was an increase of \$1.0 million for capital grants and contributions as the Town received a capital contribution for street improvements during the current year. A transfer to the governmental activities from the business-type activities occurred in order to pay for capital expenditures incurred during the year.

State shared revenues increased approximately \$0.2 million (6%) compared to fiscal year 2017. The increase was largely due to an increase in urban revenue sharing funding and state sales tax funding.

The change in operating grants and contributions and interest income was not significant during the current year.

Expenses increased \$2.5 million, or 11%. Highways and Streets expenses increased \$1.5 million due to an increase in spending for street repairs and resurfacing. General Government and Public Safety expenses increased \$1.1 million combined, mainly due to increase in salaries and related expenses. Interest Income did not change significantly.

Business-Type Activities – Business-type activities increased the Town's net position by \$0.1 million in fiscal year 2018. Income from operations increased \$0.2 million and expenses increased by a similar amount (\$0.3 million). Overall increase was due to an increase in customers during the current year.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – Funds are created and segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Activity not required to be reported in a separate fund is included in the General Fund.

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The major governmental funds reported by the Town include the General Fund, Highway User Revenue Fund (HURF), and Capital Projects Fund.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$46.2 million, an increase of \$6.2 million, or a 16% increase in comparison with the prior year. The combined ending fund balances for fiscal year 2017 were \$40.0 million.

**TOWN OF PARADISE VALLEY, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2018**

The General Fund is the chief operating fund of the Town. At June 30, 2018, the unassigned fund balance of the General Fund was \$32.8 million, or 71% of the combined governmental fund balance. The unassigned fund balance of the General Fund at June 30, 2017 was \$26.5 million, or 66% of the combined governmental fund balance. As a measure of the General Fund's liquidity, it may be useful to compare General Fund unassigned fund balance to General Fund expenditures. The General Fund unassigned balance of \$32.8 million represents 182% of General Fund expenditures.

The General Fund fund balance increase of \$4.8 million from fiscal year 2017 is the result of increased revenues in sales tax, franchise fees, fines and forfeitures, licenses and permits and contributions and donations. The General Fund also had a decrease in expenditures as the Town did not prepay PSPRS contributions by fiscal year end. Sales and franchise tax revenue increased \$2.0 million due to an increase in economic conditions and consumer spending. Fines and Forfeitures increased \$0.4 million due to an increase in traffic citation activity. Licenses and Permits increased \$0.4 million due to increases in permit activity with the increased volume of construction within the Town borders. The Town also received \$1.0 million in contribution revenue for street improvement projects. Additionally, expenditures decreased from the prior year by \$3.8 million as the Town did not prepay the PSPRS contributions at fiscal year-end. The excess of revenues over expenditures was offset by transfers totaling \$8.5 million in order to pay for related HURF expenditures and capital projects.

The Highway User Revenue Fund (HURF) is used to account for the state shared revenues restricted for street and highway purposes. The fund balance at June 30, 2018 was \$0.8 million and was all assigned due to unspent transfers from the General Fund. The HURF Fund received a transfer of \$3.9 million from the General Fund to supplement the cost of street improvement projects. HURF expenditures increased \$1.6 million in comparison with the prior year mainly due to significant street resurfacing improvements that were incurred in the current year along with the purchase of street vehicles.

The Capital Projects Fund increased \$1.4 million as there were numerous capital projects occurring at the Town that had been previously planned. Overall, capital outlay expenditures totaled \$3.2 million during the year, which was partially offset by a transfer of \$4.8 million from the General Fund and Sewer Fund. Capital outlay expenditures decreased \$0.7 million due to the nature and timing of project expenditures and related completion dates. The Town continues to fund capital improvements and will continue to have significant capital outlay expenditures.

The nonmajor governmental funds reported a decrease in fund balance of \$0.4 million. This change was a result of the scheduled principal and interest payments on outstanding debt.

Proprietary Funds – The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the fiscal year, the unrestricted net position was a negative \$1.5 million for the Sewer Fund, \$2.3 million for the Fire Service Fund and \$0.6 million for the Nonmajor Alarm Fund.

The total change in net position for the enterprise funds was a positive \$0.1 million for fiscal year 2018. The change was primarily due to a consistent number of customers for sewer and fire services and a full year of increased sewer rates.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Town's annual budget is the legally adopted expenditure control document of the Town. The Town closely monitors its revenues, particularly local sales taxes, licenses and permits, state shared revenues and investment earnings, for any potential shortfall. Actual revenues of \$31.3 million exceeded the \$28.5 million final budget amount by \$2.8 million, or 10%. The \$2.8 million variance was mainly comprised of sales tax revenue, licenses and permits, and contributions and donations exceeding budget. Sales tax revenue had a \$1.1 million positive variance with the budget due to changes in the economy that lead to greater than expected sales tax revenue. Licenses and permits had a positive variance with the final budget of \$0.8 million due to an increase in filings for licenses and various permits. In addition, contributions and donations had a positive variance with the final budget of \$1.0 million as the town received a one-time contribution for street improvements. Lastly, other income had a negative variance with the final budget of \$0.5 million due to budgeted revenues for miscellaneous activity which did not occur.

The \$18.0 million of actual expenditures were 75% of the final budget. All departments were under the final budget during the current year.

Actual revenues exceeded expenditures by \$13.3 million which was more than the \$4.4 million excess reflected in the final revised budget.

Budgeted revenues remained consistent between the original and final budget. Budgeted expenditures decreased by \$16,854, which was not considered significant. Additionally, there were various shifts in line items between general government and public safety. Overall general government increased \$3.7 million while public safety decreased by \$3.8 million due to shifts in spending needs for the year, mainly from the budgeted PSPRS payment on the unfunded liability, which was not made during the fiscal year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Town's capital assets for its governmental and business-type activities as of June 30, 2018 and 2017 amount to \$110.2 million and \$109.7 million, respectively (net of accumulated depreciation). The net increase in capital assets (net of accumulated depreciation) was \$0.5 million, due primarily to an increase in buildings and improvements from completed construction in progress which was offset by depreciation expense for the fiscal year. Capital assets include land and improvements, infrastructure, buildings and improvements, sewer systems, sewer capacity rights, machinery, equipment, vehicles, and construction in progress.

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures. See Note 3.A.4 to the Financial Statements for further information regarding capital assets. Table A-3 provides a summary of 2018 and 2017 assets, net of depreciation.

The most significant capital asset acquisitions during the fiscal year were as follows:

- Public Safety Communication Tower
- Ritz-Carlton Development Street Improvements
- APS Undergrounding Projects
- Sidewalk Improvements
- Information Technology Upgrades
- Public Safety Equipment and Vehicles

Debt Administration

At the end of the fiscal years 2018 and 2017, the Town had total long-term obligations outstanding of \$9.5 million and \$11.0 million respectively. Of these amounts, \$8.4 million and \$9.8 million respectively are for the 2009 Municipal Property Corporation Excise Tax Refunding Bonds and 2016 Excise Tax Revenue Bond. The Town refunded its 1998 Municipal Property Corporation bonds and capital leases in fiscal year 2009 to take advantage of favorable interest rates. In fiscal year 2016, the Town issued new Excise Tax Revenue Bonds which totaled \$7,880,000 in order to fund the operations in the Capital Projects Fund. Additional information on the Town's long-term obligations can be found in Note 3.E. Long-term Obligations to the Financial Statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The FY 2018-2019 budget is based upon a relatively specific revenue portfolio. The Town has no local property tax. The Town's limited demographics of residential and resort mean that the Town is highly reliant on hotel and bed tax, construction sales tax, and state shared revenues. The Town's sales tax rate is 2.5%, which was made permanent by the Town Council in August 2014. This action preserved approximately \$3.2 million in sales tax revenues which would have been lost had the temporary rate expired. This revenue stream, especially the amounts derived from construction activities, has allowed the Town Council to continue the aggressive capital improvement plan as well as generate funding for the replenishment of infrastructure, such as roads, buildings, and technology.

With the approval of the permanent base adjustment in November 2016, the Town's expenditure limitation was increased. The updated expenditure limitation still requires the Town to operate within the confines of a balanced budget, but provides the flexibility for the Town Council to approve the use of available revenues to pay down pension and debt liabilities and address infrastructure needs.

The FY 2018-19 budget forecast assumes the economy will continue its improvement. Budgeted operating revenues total \$39.2 million. Additionally, FY 2018-19 budget operating expense total \$38.2 million (excluding contingencies). A transfer of \$6.7 million will be made to the Capital Improvements Fund from the General Fund to pay for an aggressive capital improvement program.

RECONCILIATION OF THE BALANCE SHEET
OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF NET POSITION
JUNE 30, 2018**

Fund Balances - Total Governmental Funds \$ 46,248,702

Total net position reported for governmental activities in the statement of net position is different because:

Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. Those assets consist of:

| | | |
|------------------------------------|---------------|------------|
| Land | \$ 41,835,164 | |
| Construction in Progress | 2,212,874 | |
| Land Improvements | 2,037,352 | |
| Infrastructure | 37,942,296 | |
| Buildings and Improvements | 11,834,564 | |
| Machinery, Equipment, and Vehicles | 11,478,436 | |
| Total Capital Assets | 107,340,686 | |
| Less: Accumulated Depreciation | (24,115,260) | 83,225,426 |

Accounts receivable, net of allowance for doubtful accounts, that were not available to finance current financial resources. 296,522

OPEB assets held in trust for future benefits are not available for Town operations and, therefore, are not reported in the governmental funds. 22,925

Deferred outflows and inflows of resources related to pensions/OPEB are applicable to future reporting periods and, therefore, are not reported in the governmental funds.

| | | |
|--|--|-----------|
| Deferred outflows of resources related to pensions | | 5,320,934 |
| Deferred inflows of resources related to pensions | | (440,202) |
| Deferred outflows of resources related to OPEB | | 76,291 |
| Deferred inflows of resources related to OPEB | | (37,444) |

Long-term liabilities that pertain to governmental funds, including pensions/OPEB liabilities and bonds payable, are not due and payable in the current period and, therefore, are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net position.

TOWN OF PARADISE VALLEY, ARIZONA
RECONCILIATION OF THE STATEMENT OF REVENUE, EXPENDITURES, AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2018

Net Change in Fund Balances-Total Governmental Funds \$ 6,215,830

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense.

| | | |
|---------------------------------|--------------------|---------|
| Expenditures for Capital Assets | \$ 3,095,592 | |
| Capital Contributions | 49,780 | |
| Depreciation Expense | <u>(2,258,748)</u> | 886,624 |

Accounts receivables, net of allowance, recorded as revenue in the government-wide statement of net position, but not yet available.

| | | |
|--------------------------------------|----------------|--------|
| Accounts Receivables - June 30, 2017 | 214,128 | |
| Accounts Receivables - June 30, 2018 | <u>296,522</u> | 82,394 |

The governmental funds do not report claims and judgements payable until they are due. The judgement was settled and accrued in the prior year, but was paid in the current year. Therefore, this amount needs to be reversed for government-wide presentation.

426,696

Governmental funds report pension/OPEB contributions as expenditures when made. However, in the Statement of Activities, pension/OPEB expense is the cost of benefits earned, adjusted for member contributions, the recognition of changes in deferred outflows and inflows of resources related to pensions, and the investment experience.

| | | |
|-----------------------|-----------------|-------------|
| Pension Contributions | 2,432,372 | |
| Pension Expense | (4,014,866) | |
| OPEB Contributions | 54,262 | |
| OPEB Expense | <u>(59,860)</u> | (1,588,092) |

The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of long-term debt and related items is as follows:

| | | |
|---------------|----------------|-----------|
| Capital Lease | 73,186 | |
| Bond Premium | 33,906 | |
| Bonds Payable | <u>935,203</u> | 1,042,295 |

In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).

Change in Net Position of Governmental Activities \$ 7,121,911

TOWN OF PARADISE VALLEY, ARIZONA
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Town of Paradise Valley, Arizona (Town) have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB). A summary of the Town's more significant accounting policies follows.

During the year ended June 30, 2018, the Town adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which establishes measurement and reporting requirements for postemployment benefit plans that are not pension plans.

A. Financial Reporting Entity

The Town is a municipal government that is governed by a separately elected governing body. It is legally separate from and fiscally independent of other state and local governments. The accompanying financial statements present the Town and its component units, entities for which the Town is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the Town's operations.

The Town includes the following blended component units within the reporting entity:

MPC Debt Service Fund. The MPC Debt Service Fund consists of the Paradise Valley Municipal Property Corporation (PVMPC) of which the board of directors consists of seven members who are appointed by the Town Council. The PVMPC, which is a nonprofit corporation incorporated under the laws of the state of Arizona, was formed for the sole purpose of assisting the Town in obtaining financing for various projects of the Town. The Town has an obligation for the repayment of the Paradise Valley Municipal Property Corporation's bonds.

The Mummy Mountain Preserve Trust. The Mummy Mountain Preserve Trust (MMPT) board of trustees consists of five members who are appointed by the Town Council. The MMPT was created for charitable purposes as defined in the Internal Revenue Code section 501(c)(3). The Town established and created beneficial interest in the MMPT to acquire, maintain, preserve and protect in perpetuity undeveloped real property and developed real property that can be returned to its natural state, and interests therein, including scenic and conservation easements, on and around the Mummy Mountain Preserve in the Town of Paradise Valley. The Town Council authorized the Town Manager and appropriate officers of the Town to have operational responsibility over MMPT by executing an agreement between the Town and MMPT to provide in-kind and direct expenditures for support services to the MMPT, including but not limited to the accounting, legal, clerical, property maintenance and management, insurance, real estate transaction expense, promotional, donor and trust estate costs. The Mummy Mountain Preserve Trust cannot be part of another financial reporting entity.

Separate financial statements are not issued for the component units.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the primary government and its component units.

The effect of interfund activity has been removed from these statements except for interfund services provided and used are not eliminated in the consolidation. *Governmental activities* are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due. However, since debt service resources are provided during the current year for payment of general long-term principal and interest due early in the following year, the expenditures and related liabilities have been recognized in the Debt Service Fund.

Intergovernmental grants and aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Town reports the following major governmental funds:

The General Fund - The General Fund is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

Highway User Revenue Fund - The Highway User Revenue Special Revenue Fund accounts for the Town's share of restricted motor fuel tax revenues and lottery proceeds.

Capital Projects Fund - The Capital Projects Fund accounts for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

The Town reports the following major proprietary funds:

Sewer System Fund - The Sewer System Fund accounts for the costs to operate, construct and finance the Town's sewer system.

Fire Service Fund - The Fire Service Fund accounts for the costs to operate fire services for the Town.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, for governmental activities the Town uses restricted resources first, when appropriate, then unrestricted resources as they are needed.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity

1. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, cash and investments held by the state treasurer, and highly liquid investments with maturities of three years or less from the date of acquisition.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity (Continued)

1. Deposits and Investments (Continued)

Cash and investments are pooled except for funds required to be held by fiscal agents or restricted under provisions of bond indentures. State statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, certificates of deposit in eligible depositories, repurchase agreements, obligations of the state of Arizona or any of its counties or incorporated cities, towns or duly organized school districts, improvement districts in this state and the State Treasurer's Local Government Investment Pool.

2. Receivables

All trade receivables are shown net of an allowance for uncollectible.

3. Interfund Receivables/Payables

During the course of operations, individual funds within the Town's pooled cash accounts may borrow money from the other funds within the pool on a short-term basis. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet of the fund financial statements and are eliminated in the preparation of the government-wide financial statements.

The Town also reports advances to and advances from other funds on the balance sheet of the fund financial statements for long-term interfund borrowings between funds (more than a year).

4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide and fund financial statements. The Town recognizes the expense/expenditure in the government-wide and fund financial statements at the time the benefit is received and not at the time of the outlay.

5. Restricted Cash and Investments

The Town reports restricted cash in the Debt Service Fund and Sewer Fund for cash held with a paying agent. The Town also reports restricted cash and investments in the General Fund, Capital Projects Fund, Nonmajor Governmental Funds, Sewer Fund and Nonmajor Enterprise Alarm Fund for the resort payment reserve, customer deposits, unspent bond proceeds, and unspent sewer development fees, respectively.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity (Continued)

6. Capital Assets

Capital assets (including property, plant, and equipment) are reported in the governmental or business-type activities columns in the government-wide financial statements. The Town defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Property, plant and equipment purchased or acquired is carried at historical cost or estimated historical cost. Donated capital assets, donated works of art and similar assets are recorded at acquisition value. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred.

Depreciation on all assets is provided on a straight-line basis over the following estimated useful lives:

| | |
|--|----------------|
| Buildings and Improvements | 25 Years |
| Land Improvements | 25 Years |
| Sewer Lines | 50 Years |
| Infrastructure | 30 to 50 Years |
| Machinery, Furniture, Equipment and Vehicles | 5 to 20 Years |

7. Deferred Outflows of Resources

The Town recognizes the consumption of net position that is applicable to a future reporting period as deferred outflows of resources. Reported amounts are related to the requirements of accounting and financial reporting for pensions and other postemployment benefits.

8. Compensated Absences

The liability for compensated absences reported in the government-wide and proprietary fund financial statements consist of unpaid, accumulated leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity (Continued)

9. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary type statement of net position. Bond premiums are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the bond premium. Bond issuance costs are expensed at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Pension Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arizona State Retirement System (ASRS) and Public Safety Personnel Retirement System (PSPRS) and additions to/deductions from ASRS/PSPRS's fiduciary net position have been determined on the same basis as they are reported by ASRS/PSPRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Deferred Inflows of Resources

The deferred inflows of resources reported in the governmental fund financial statements represent resources that are not available to the Town as of June 30, 2018 or within 60 days of fiscal year end. The deferred inflows of resources represent a reconciling item between the governmental fund financial statements and the government-wide financial statements.

The Town also recognizes the acquisition of net position that is applicable to a future reporting period as deferred inflows of resources. Reported amounts are related to the requirements of accounting and financial reporting for pensions and other postemployment benefits.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity (Continued)

12. Net Position

In the government-wide financial statements, net position is reported in three categories: Net investment in capital assets; restricted net position; and unrestricted net position. The net investment in capital assets is separately reported because these assets are not available for future spending. Restricted net position account for the portion of net position restricted by parties outside the Town. Unrestricted net position is the remaining net position not included in the previous two categories.

13. Fund Balance Classifications

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification include amounts that cannot be spent because they are either not in spendable form such as inventories, advances to other funds, other long-term notes receivable, and prepaid items, or are legally or contractually required to be maintained intact.

Restricted fund balances are those that have externally imposed restrictions on its usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

Committed fund balances are self-imposed limitations approved by the Town Council through ordinance, which is the highest level of decision-making authority within the Town. Only the Town Council can remove or change the constraints placed on committed fund balances through formal resolution. Fund balances must be committed before the end of the fiscal year.

Assigned fund balances are resources constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed. The Town Council has authorized the Town Manager or his designee to make assignments of resources for specific purposes.

The unassigned fund balance is the residual classification for the General Fund and includes all amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned. It is the Town's policy to use restricted fund balance first, then committed, assigned, and lastly unassigned amounts. The Town has also established a fund balance policy whereas the unassigned fund balance in the operating budget be equal to at least 90%, and not more than 110% of expenditures.

TOWN OF PARADISE VALLEY, ARIZONA
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Deficit Fund Balance

At fiscal year end June 30, 2018, the Town reported a deficit fund balance in the nonmajor governmental fund Grants Fund of \$3,165. This deficit was due to costs that had been incurred, but not yet collected within 60 days and therefore reported as deferred inflows of resources. The Town submitted claims for those grant funds and will receive them in the subsequent year.

B. Budgetary Information

The Town Council follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Arizona Revised Statutes, the Town Manager submits a proposed budget for the fiscal year commencing the following July 1 to the Town Council. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
2. A public hearing is conducted to obtain taxpayer comment.
3. State law requires that, prior to April 1, the Economic Estimates commission provides the Town with a final expenditure limit for the coming fiscal year. To ensure compliance with the expenditure limitation, a uniform expenditure report must be filed with the state each year. This report, issued under a separate cover, reconciles total Town expenditures from the audited financial statements to total expenditures for reporting in accordance with the State's uniform expenditure reporting system (A.R.S. §41-1279.07).
4. By Arizona Constitution, expenditures may not legally exceed the expenditure limitation described below for all fund types as a whole. For management purposes, the Town adopts a budget by department for the General Fund and in total by fund for other funds (except for the Mummy Mountain Preserve Trust Fund).
5. Legal budgets are adopted for all funds on essentially the same modified accrual basis of accounting used to record actual revenues and expenditures with the exception of the Mummy Mountain Trust Nonmajor Governmental Fund in which an adopted budget is not prepared.

The Town is subject to the State of Arizona's Spending Limitation Law for Towns and Cities. This law does not permit the Town to spend more than budgeted revenues plus the carryover unrestricted cash balance from the prior fiscal year. The limitation is applied to the total of the combined funds. The Town complied with this law during the year.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

B. Budgetary Information (Continued)

For fiscal year ended June 30, 2018, the Town reported an over-expenditure in the following categories:

| Nonmajor Governmental Funds | <u>Overexpenditure</u> |
|------------------------------------|------------------------|
| Donations Fund | \$ 2,751 |
| MPC Debt Service Fund | 4 |

The Donations Fund over-expenditure was due to the Town expending more fund balance than originally expected. The MPC Debt Service Fund over-expenditure was due to a higher interest payment than budgeted. Cash was available to meet all of the over-expenditures listed.

Investments

The State Investment Board provides oversight for the state treasurer's pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. The fair value of a participant's position in the pool approximates the value of that participant's pool shares. The shares are not identified with specific investments and are not subject to custodial credit risk. All other investments of the Town are uninsured and unregistered with the securities held by the counterparty's trust department or agent in the Town's name.

At year-end, the Town's investments consisted of the following:

| | 6/30/2018 | Fair Value Measurements Using | | |
|---|----------------------|--|--|--|
| | | Quoted Prices in Active Markets for Identical Assets (Level I) | Significant Other Observable Inputs (Level II) | Significant Observable Inputs (Level III) |

| Total Investments Measured at Fair Value | <u>17,655,494</u> | | | |
| Total Investments | <u>\$ 40,351,338</u> | | | |

Debt securities classified in Level I of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt and equity securities classified in Level II of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The Town did not report any investments classified as Level III investments.

Interest Rate Risk – Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. In accordance with the Town's investment policy, the Town manages its exposure to declines in fair values by limiting its investments to U.S. government securities with maturities of less than three years.

Credit Risk – The Town limits its investments to the State Treasurer's Investment Pool and Federal Agency Securities. The investment in the money market is on hand at the end of the fiscal year in order to make the required principal and interest payments on outstanding bonds. The funds are on deposit with a trustee for less than one month and do not pose a credit risk to the Town. The Town's investments consist of U.S. Treasury Bonds, Corporate Bonds and Notes, Supra National Agency Bonds, U.S. Agency Securities, Money Market Funds and the State Treasurer's Investment Pool. D. Interfund Receivables/Payables (Continued)

At June 30, 2018, the Town reported the following due to/due from other funds:

| | Due From |
|--------------|---------------|
| Due To | Sewer Fund |
| General Fund | \$ 1,528,638 |

The \$1,528,638 due from the Sewer Fund to the General Fund was for short-term borrowings to cover deficit cash in the Sewer Fund.

Interfund advances for the year ended June 30, 2018 consisted of the following:

| | Advance From |
|--------------|--------------------------------|
| Advance To | Nonmajor Governmental Funds |
| General Fund | \$ 500,000 |

The advance from the General Fund to the Nonmajor Governmental Funds was recorded to advance the Court Enhancement Fund monies for the construction of a new court building. The advance will be repaid over a 10-year period beginning July 1, 2013. The first principal payment was recorded during fiscal year 2014 and the current year principal payment was \$90,000. The interest rate is 2.50%. The Court Enhancement Fund paid a total of \$14,200 in interest on the advance during the current fiscal year.

E. Long-Term Obligations

The Town has long-term bonds payable issued to refund previous bonds used to provide funds for the acquisition of sewer capacity and to retire a capital lease used for the acquisition and construction of fire stations. Compensated absences are paid by the applicable fund where each employee is regularly paid, primarily the General Fund.

Bonds payable at June 30, 2018, were as follows:

| Description | Maturity | Interest Rate (%) | Outstanding at June 30, 2018 |
|--|---------------|----------------------|---------------------------------|
| Revenue Bonds | | | |
| Municipal Property Corporation Excise Tax Refunding Bond, Series 2009; original issue \$11,055,000 | 1/1/2019 | 3.00-5.00% | \$ 675,000 |

E. Long-Term Obligations (Continued)

The Town has pledged future excise tax revenues, which include sales tax, franchise tax, General Fund intergovernmental revenues and business licenses, to repay \$11,055,000 in excise tax revenue refunding bonds and \$7,880,000 in excise tax revenue bonds. The remaining principal balance is \$8,400,000. Proceeds from the MPC Excise Tax Revenue Refunding Bonds, Series 2009 were used 32% to refund prior bonds in the Sewer Fund and 68% for refunding prior bonds and retiring debt on a capital lease in the governmental activities. The MPC bonds are payable from excise tax revenues transferred to the MPC Debt Service Fund in the governmental funds and developer fee revenues in the Sewer Fund through 2019. The Excise Tax Revenue Obligations, Series 2016, bond proceeds were used to fund projects in the Capital Project Funds and the total proceeds were deposited to the associated fund. All payments however will be made through the Debt Service Fund. Total principal and interest payments on the bonds are expected to require less than 10% of pledged revenues. Total remaining principal and interest required on the bonds is \$8.8 million, payable through 2024. In the current year, total principal and interest paid were \$1.5 million.

Changes in long-term obligations for the year ended June 30, 2018 are as follows:

C. Risk Management

The Town of Paradise Valley, Arizona, is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Town's insurance protection is provided by the Arizona Municipal Risk Retention Pool, of which the Town is a participating member. The limit for basic coverage is for \$2,000,000 per occurrence on a claims made basis. The aggregate excess coverage is for an additional \$18,000,000, excluding land use liability claims, on a follow form, claims made basis. The excess land use liability aggregate is \$5,000,000. No settlements exceeded insurance coverage during any of the past three fiscal years.

The Arizona Municipal Risk Retention Pool is structured such that member premiums are based on an actuarial review that will provide adequate reserves to allow the Pool to meet its expected financial obligations. The Pool has the authority to assess its members' additional premiums should reserves and annual premiums be insufficient to meet the Pool's obligations. The Town is also insured by Arizona Municipal Risk Retention Pool for potential worker related accidents.

D. Commitments and Contingencies

Contingencies – The Town is a defendant in various lawsuits. In the opinion of the Town's legal counsel, the status of the lawsuits are either not presently determinable or in the event of an unfavorable decision, would not significantly impact the Town.

Commitments – The Town has entered into an Intergovernmental Agreement (IGA) with the City of Phoenix Fire Department that enables the City of Phoenix to provide Fire Service personnel, communication, and dispatch services to the Town. In return, the Town pays service fees equal to 50% of the operating cost to the City of Phoenix based on the IGA. Payments are due on a quarterly basis to City of Phoenix. The agreement continues until terminated by either party. Termination requires 365 days written notice unless there is a failure to meet responsibilities by either party. If there is a failure to meet responsibilities the agreement can be terminated in 90 days. The payments to the City of Phoenix related to this IGA were \$2.6 million for the year ended June 30, 2018.

E. Retirement Plans

Defined Contribution Pension Plan

Prior to July 1, 2013, all Town employees who worked more than 30 hours per week were eligible to participate in a defined contribution pension plan administered by the ICMA Retirement Corporation as a 401(a) plan. The payroll for the Town employees covered by this plan for the year ended June 30, 2018 was \$3,305,389. The Town's total payroll was \$7,486,918. Effective July 1, 2013, the Town discontinued employer contribution to the plan, but employee contributions continued. New employees hired after July 1, 2013 were not eligible to participate in the plan. The Town has discontinued the 401(a) plan effective June 30, 2018.

A 401(a) plan is a defined contribution plan pursuant to Section 401(a) of the Internal Revenue Code. This means that the employee's retirement benefit is based upon the total contributions made by the participating employee and employer plus investment earnings on those contributions. The employer decides on the method of the participant's contribution. The most common method is mandatory participant contributions made on a pre-tax basis, which is how the Town's 401(a) has been designed. Because the contributions are mandatory and made on a pre-tax basis, the employee cannot change the amount being contributed nor may the employee discontinue making contributions as long as he/she is eligible under the plan. Further, eligible employees had a one-time decision to enroll in the plan. These are rules under the Internal Revenue Code.

Employees that leave employment of the Town are entitled to their contributions and the vested portion of the prior Town's contributions, plus investment earnings. During fiscal year 2017-2018, the Town did not contribute to the 401(a) plan. The employees' contributions totaled \$59,082.

The ICMA Retirement Corporation held no securities of the Town or other related parties during the fiscal year 2017-2018 or as of the close of the fiscal year.

Cost-Sharing and Agent Multiple Employer Pension Plans

The Town contributes to the Arizona State Retirement System (ASRS) and the Public Safety Personnel Retirement System (PSPRS) for police officers. The plans are component units of the state of Arizona.

At June 30, 2018, the Town reported the following aggregate amounts related to pensions for all plans to which it contributes:

| Statement of Net Position and Statement of Activities | Governmental Activities | | |
|--|-------------------------|---------------|---------------|
| | ASRS | PSPRS | Total |
| Net Pension Liability | \$ 6,464,891 | \$ 17,948,248 | \$ 24,413,139 |
| Deferred Outflows of Resources | 926,157 | 4,394,777 | 5,320,934 |
| Deferred Inflows of Resources | 440,202 | - | 440,202 |
| Pension Expense | 325,477 | 3,689,389 | 4,014,866 |

The Town reported accrued payroll and employee benefits of \$29,765 for outstanding pension contribution amounts payable to all pension plans for the year ended June 30, 2018. Also, the Town reported \$3,360,534 of pension expenditures in the governmental funds related to all pension plans to which it contributes.

Arizona State Retirement System

Plan Description – Town employees not covered by the other pension plans described on the following pages participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health insurance premium benefit (OPEB); and a cost-sharing, multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its Web site at www.azasrs.gov.

The OPEB plan disclosures are not included as they are not significant to the Town.

Benefits Provided – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

| | Retirement | |
|--|---|--|
| | Initial Membership Date | |
| | Before July 1, 2011 | On or After July 1, 2011 |
| Years of Service and Age Required to Receive Benefit | Sum of years and age equals 80 10 years age 62 5 year age 50* any years age 65 | 30 years age 55 25 years age 60 10 years age 62 5 years age 50* any years age 65 |
| Final Average Salary is Based on: | Highest 36 Consecutive Months of Last 120 Months | Highest 60 Consecutive Months of Last 120 Months |
| Benefit Percentage per Year of Service | 2.1% to 2.3 % | 2.1% to 2.3 % |

* With Actuarially Reduced Benefits

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2018, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.34% of the members' annual covered payroll, and the Town was required by statute to contribute at the actuarially determined rate of 10.90% of the active members' annual covered payroll.

In addition, the Town was required by statute to contribute at the actuarially determined rate of 9.26% of annual covered payroll of retired members who worked for the Town in positions that would typically be filled by an employee who contributes to the ASRS. The Town's contributions to the pension plan for the year ended June 30, 2018, was \$489,371.

During the fiscal year ended June 30, 2018, the Town paid for ASRS pension contributions as follows: 86% from the General Fund and 14% from the HURF Fund.

Pension Liability – At June 30, 2018, the Town reported a liability of \$6,464,891 for its proportionate share of the ASRS' net pension liability. The net pension liability was measured as of June 30, 2017. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2016, to the measurement date of June 30, 2017. The total pension liability as of June 30, 2017, reflects a change in actuarial assumption for a decrease in loads for future potential permanent benefit increases.

The Town's reported liability at June 30, 2018, decreased by \$309,489 from the Town's prior year liability of \$6,774,380 because of changes in the ASRS' net pension liability and the Town's proportionate share of that liability. The ASRS' publicly available financial report provides details on the change in the net pension liability.

The Town's proportion of the net pension liability was based on the Town's FY 2017 contributions. The Town's proportion measured as of June 30, 2017, was 0.04150%, which was a decrease of 0.00047 from its proportion measured as of June 30, 2016.

The net pension liability measured as of June 30, 2018, will reflect changes of actuarial assumptions based on the results of an actuarial experience study for the 5-year period ended June 30, 2016. The change in the Town's net pension liability as a result of these changes is unknown.

The \$489,371 reported as deferred outflows of resources related to ASRS pensions resulting from Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions will be recognized in pension expense as follows:

| <u>Year Ended June 30,</u> | |

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.7% using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| <u>Asset Class</u> | <u>Target Allocation</u> | <u>Real Return Arithmetic Basis</u> |
|--------------------|------------------------------|---|
| Equity | 58% | 6.73% |
| Fixed Income | 25% | 3.70% |
| Commodities | 2% | 3.84% |
| Real Estate | 10% | 4.25% |
| Multi-Asset Class | 5% | 3.41% |
| Total | <u>100%</u> | |

Discount Rate – The discount rate used to measure the ASRS total pension liability was 8%, which is less than the long-term expected rate of return of 8.7%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statutes. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town’s Proportionate Share of the ASRS Net Pension Liability to Changes in the Discount Rate – The following table presents the Town’s proportionate share of the net pension liability calculated using the discount rate of 8%, as well as what the Town’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7%) or 1 percentage point higher (9%) than the current rate.

| | <u>1% Decrease (7%)</u> | <u>Current Discount Rate (8%)</u> | <u>1% Increase (9%)</u> |

Plan Description – Town police employees who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS). The PSPRS administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit (OPEB) plan (agent plans). A nine-member board known as the board of trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.

The PSPRS issue publicly available financial reports that include their financial statements and required supplementary information. The reports are available on the PSPRS Web site at www.psprs.com.

Benefits Provided – The PSPRS provide retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefits terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

| | Initial Membership Date | |

For the agent plans, the Town's contributions to the pension plan for the year ended June 30, 2018, was:

| | |
|----------------------------|-----------------|
| | PSPRS Police |
| Pension Contributions Made | \$ 1,943,001 |

During the fiscal year 2018, the Town paid pension contributions 100% from the General Fund.

Pension Liability – At June 30, 2018, the Town reported the following net pension liability:

| | |
|--------------|--------------------------|
| | Net Pension Liability |
| PSPRS Police | \$ 17,948,248 |

The net pension liability was measured as of June 30, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability as of June 30, 2017, reflect changes of actuarial assumptions abased on the results of an actuarial experience study for the 5-year period ended June 30, 2016, including decreasing the investment rate of return from 7.5% to 7.4%, decreasing the wage inflation from 4% to 3.5%, and updating mortality, withdrawal, disability, and retirement assumptions. The total pension liability for PSPRS also reflects changes of benefit terms for legislation that changed benefit eligibility and multipliers for employees who became members on or after January 1, 2012, and before July 1, 2017, and a court decision that decreased the contribution rates for employees who became members before July 20, 2011. The court decision will also affect the PSPRS net pension liabilities measured as of June 30, 2018, because of refunds of excess member contributions. The change in the Town's PSPRS net pension liabilities as a result of the refunds is not known.

| | |
|----------------|---|
| | PSPRS |
| | Police |
| | <hr style="width: 50%; margin: 0 auto;"/> |
| Discount Rates | 7.40% |

The projection of cash flows used to determine the PSPRS discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

 NOTES TO PENSION SCHEDULES
 JUNE 30, 2018**

NOTE 1 ACTUARIALLY DETERMINED CONTRIBUTION RATES

Actuarial determined contribution rates for PSPRS are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

| | |
|---|--|
| Actuarial Cost Method | Entry age normal |
| Amortization Level | Level percent-of-pay, closed |
| Remaining Amortization Period as of the 2016 Actuarial Valuation | 21 years for unfunded actuarial accrued liability, 20 years for excess |
| Asset Valuation Method | 7-year smoothed market value; 80%/120% market corridor |
| Actuarial Assumptions | |
| Investment Rate of Return | PSPRS Members with initial membership date before July 1, 2017: In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.5%. In the 2013 actuarial valuation, the investment rate of return was decreased from 8.0% to 7.85% |
| Projected Salary Increases | In the 2014 actuarial valuation, projected salary increases were from 4.5%-8.5% to 4.0%-8.0%. In the 2013 actuarial valuation, project salary increases were decreased from 5.0%-9.0% to 4.5%-8.5% |
| Wage Growth | In the 2014 actuarial valuation, wage growth was decreased from 4.5% to 4.0%. In the 2013 actuarial valuation, wage growth decreased from 5.0% to 4.5% |
| Retirement Age | Experience-based table of rates that is specific to the type of eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006-June 30, 2011 |
| Mortality | RP-2000 mortality table (adjusted by 105% for both males and females) |

^a Proportion applicable to the Town of Paradise Valley, Arizona is computed on the ratio of secondary assessed valuation for fiscal year 2017/18.

^b Based on the East Valley Institute of Technology's secondary assessed valuation and does not include amount of secondary assessed valuation in Pinal County.

^c Includes Stadium District revenue Bonds outstanding in the aggregate principal amount of \$5,800,000

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Town. This process recognizes that, when considering the Town's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
